ES **ExecuteSpec — Trust Pack** · Last reviewed: 2026-04-27

Trust at ExecuteSpec

Everything procurement needs in one place. Updates land as our compliance posture matures — you can also subscribe to changes via **security@executespec.ai**.

TLS 1.3 in transit | AES-256 at rest | Data residency · us-east4

Audit & certifications

SOC 2 Type II	Not yet certified. We will publish audit status, auditor name, and target attestation date here once an engagement is formally underway.
ISO 27001	Not yet — paired with future SOC 2 attestation.
HIPAA / FedRAMP	Not yet — contact us if you need either.

Data flow

Compute region	All compute in **us-east4** (Northern Virginia, GCP). Custom regions available for Enterprise.
Code retention	Workspaces destroyed **24 hours** after last access. PR diffs persist in your GitHub repo, never on our infrastructure.
Model output	Yours. We claim no rights over the code ExecuteSpec produces under your account.
Training	We **do not** train any model on your code, prompts, or run history.
Encryption	TLS 1.3 in transit · AES-256 at rest · KMS-managed.

Authentication & access

OAuth	Google · GitHub. SSO is the default for personal accounts.
SAML / OIDC	Available on Enterprise. Configure from Team page.
Session	JWT with 1-hour access + 7-day refresh; rotation forced on logout-everywhere.
MFA	Inherited from your IdP — we don't store passwords for SSO accounts.

Sub-processors

Anthropic	LLM provider	US
OpenAI	LLM provider	US
Google AI (Gemini)	LLM provider	US
Google Cloud Platform	Compute · storage · networking	us-east4
Stripe	Payments (USD)	US
Razorpay	Payments (INR)	IN
PostHog	Product analytics (no PII)	US
Resend	Transactional email	US

Audit log & data export

Audit log	Every billing / identity / org change is time-stamped, exportable as JSON, and retained for **7 years** on Enterprise.
Data export	One-click project export from any project page. Includes all runs, PRs, validation reports, and configuration.
Data deletion SLA	**30 days** from request to full erasure. Audit log retains the deletion event for compliance.
DPA	Signable from any tier; shipped on Enterprise by default.

For your vendor risk team
